

Wednesday Science Fun

at Earthplace in Westport

Wednesday Science activities are available once a month. Sign up in advance is required. The program runs from 4:00 to 5:15. They are a drop off program for children in grades K-5.

Acids and Bases: October 6

Did you know that you can do more than make a volcano with the reaction of acids and bases. Come learn what acids and bases are. Try some experiments, and tie-dye your own bandana with an acid and base.

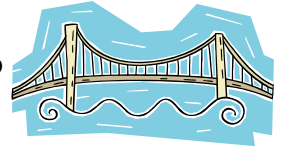

Changing Seasons: November 4

As the leaves on the trees change and fall, winter is just around the corner. Come enjoy an afternoon trail walk exploring how the forest has changed as the days are getting shorter. We will try to identify animals that are preparing for the long winter to come.

Mega and Mini Structures: December 2

Discover what the strongest shape is in nature. After discovering the shape we will attempt to build a strong mini-structure out of toothpicks. Once that is finished we will move onto mega structures out of newspaper. Come try your hand at design.

Spaces are limited. Mail in form below to: Earthplace, PO Box 165, Westport, CT 06881
Program: (check those that apply)

The mission of Earthplace is to educate the community about nature and the environment and about ways of taking action to preserve, protect and enjoy nature and the environment. Founded in 1958 and accredited by The American Association of Museums, Earthplace maintains a 62 acre wildlife sanctuary with trails; houses live wildlife for public viewing, and hosts many public nature programs and events. Other activities include a state-licensed preschool and summer camp, a wildlife rehabilitation program, and the Harbor Watch/River Watch water quality testing program. Earthplace is located at 10 Woodside Lane, Westport, CT, and is open Monday through Saturday, 9 AM to 5 PM, and Sunday 1 to 4 PM.
